
Innovamed Spain

Expertise

Customized plastic injection moulding solutions for Sanitary Products in White Room ISO-7

Exclusivity in medical device

- Machinery and facilities adapted to the sector
- More than 10 years of experience in injection of sanitary products from a wide range of sectors:
  - Medical Devices
  - In vitro
  - Pharmacy
  - Veterinary
  - Biotech
- Staff trained in the particularities of the medical device

Comprehensive services in White Room ISO-7

- Advice in pre-industrialization phase
- Injection
- Mounting
- Packing
- Emblisted
- Labelling
- Warehouse with controlled temperature
- Advice on mold manufacturing
- Mold maintenance management

Exclusively production for third parties

- We do not manufacture our own product, nor do we make distributions of sanitary product
- We put our experience, if required, at the disposal of our clients to find the most suitable partners in the different phases of launching their new products
- We collaborate with Technology Centers and design engineering companies of health product

asebio CataloniaBio & HealthTech fenin TECNOLOGÍA SANITARIA

Adaptation of our facilities in each project

- Online robotization of:
  - Artificial vision equipment
  - Welding parts
  - Overmolding
- Assembly tools
- Special labeling
- Specific quality control equipment in each project

asebio CataloniaBio & HealthTech fenin TECNOLOGÍA SANITARIA
<INNOVAMED><INNOVAMED><INNOVAMED><INNOVAMED><INNOVAMED><INNOVAMED><INNOVAMED><INNOVAMED>

Capabilities

- Capability studies
- Specifications (AQL)
- Customized work instructions / adapted to the product
- Quality reports
- External and client audits
- Statistical treatment of data
- Certificates of calibration of our equipment

Proximity and customer orientation

- Security stocks
- Custom supply contracts
- Personal attention

asebio CataloniaBio & HealthTech fenin Federación española de empresas de TECNOLOGÍA SANITARIA
<INNOVAMED><INNOVAMED><INNOVAMED><INNOVAMED><INNOVAMED><INNOVAMED><INNOVAMED><INNOVAMED>

Confidentiality

- NDA
- LOPD Certification
  (Spanish organic law on the protection of personal data)

Quality: Our success formula

- Product quality based on:
  - Productive regularity
  - Traceability
  - Client Audits
  - Validation processes adapted to customer requirements
  - Customer specifications

Experience in short and medium series

- 3D Services: Coordination with companies specialized in additive manufacturing for medical product
- Prototype molds: Both national and international according to the specific requirements of each case
- Validations of product with a different treatment according to the project

Injection in Peek

- More than 10 years of experience on high temperature conditions injection
- Windows of restrictive production
- Experience in other complex materials:
  - TPU / TPE, high transparency polycarbonate…

<INNOVAMED><INNOVAMED><INNOVAMED><INNOVAMED><INNOVAMED><INNOVAMED><INNOVAMED><INNOVAMED>

Microinjection

- 15 TN injectors
- Measuring capacity up to 0.001 mm
- For special applications we have the experience of a company specialized in laser processing and texturized micromachining of functional design

asebio CataloniaBio & HealthTech fenin TECNOLOGÍA SANITARIA
<INNOVAMED><INNOVAMED><INNOVAMED><INNOVAMED><INNOVAMED><INNOVAMED><INNOVAMED><INNOVAMED>

Special and biocompatible materials

- Polyethylene
- Polyamide
- Acetal resin
- ABS
- Peek
- Resin BK -10
- Polycarbonate
- TPE
- PBT
- Polypropylene

asebio CataloniaBio & HealthTech fenin TECNOLOGÍA SANITARIA
<INNOVAMED><INNOVAMED><INNOVAMED><INNOVAMED><INNOVAMED><INNOVAMED><INNOVAMED><INNOVAMED>

Experience in multidisciplinary projects

- Collaboration for new projects with
  Technological centers and specialized engineering companies
- Start-ups: Welcome

asebio CataloniaBio & HealthTech fenin TECNOLOGÍA SANITARIA
<INNOVAMED><INNOVAMED><INNOVAMED><INNOVAMED><INNOVAMED><INNOVAMED><INNOVAMED><INNOVAMED>

Special projects

- Overmolding
- Bi-injection
- Special treatment on molds

  Laser micromachining

  Special cooling systems
  for production with high melting point plastics
- Textured functional design for:
  - Security prints
  - Generation of water-repellent surfaces
